

DR. SUBHASH UNIVERSITY - Junagadh
School of Engineering and Technology
Syllabus for 5 Semester
ADVANCE JAVA PROGRAMMING - 2DECO506

Name of Department in which this course is offered	Semester in Which offered
COMPUTER ENGINEERING - DIPLOMA	5

1. Type of Course :
2. Prerequisite : Basic Knowledge of Java Programming

3. RATIONALE :
4. COURSE OUTCOME :

Sr. No	CO Statement
--------	--------------

5. TEACHING AND EXAMINATION SCHEME :

Teaching Schemes			Credit	Examination Scheme				
L	T	P	C	Theory		Practical		Total
				E-ESE	M-PA	V-ESE	I-PA	
0	0	4	2	0	0	25	25	50

6. CONTENT

Sr. No.	Content	Total Hrs	% Weightage
Total Hours			

7. SUGGESTED SPECIFICATION TABLE WITH MARK (THEORY)

Distribution of Theory Marks					
R Level	U Level	A Level	N Level	E Level	C Level
0.00	0.00	0.00	0.00	0.00	0.00

Legends :
R : Remembrance

U : Understanding

A : Application

N : Analyze and

E : Evaluate

C : Create and Above Levels

Note : This Specification table shall be treated as a general guideline for student and teacher. The actual distribution of marks in question paper may vary slightly from above table.

8 . REFERENCES BOOKS :

- 1 The Complete Reference Jsp 2.0,, The Complete Reference Jsp 2.0,, Phil Hanna,, Bpb, 2013
- 2 Unleashed Java 2 Platform,, Unleashed Java 2 Platform,, Jamie Jaworski,, Sams Techmedia, 2015

9 . LIST OF EXPERIMENTS :

- 1 **Practicle-1**
Develop an applet that draws a circle. The dimension of the applet should be 500 x 300 pixels. The circle should be centered in the applet and have a radius of 100 pixels. Display your name centered in a circle.(using draw Oval() method)
- 2 **Practicle-2**
Draw Five Green circles in a vertical column in the center of the applet.

9 . LIST OF EXPERIMENTS :

- 3 **Practicle-3**
Built an applet that displays a horizontal rectangle in its center. Let the rectangle fill with color from left to right.
- 4 **Practicle-4**
Develop an applet that displays the position of the mouse at the upper left corner of the applet when it is dragged or moved. Draw a 15x10 pixel rectangle filed with black at the current mouse position.
- 5 **Practicle-5**
Develop an applet that contains one button. Initialize the label on the button to "start", when the user presses the button, which changes the label between these two values each time the button is pressed.
- 6 **Practicle-6**
Develop an applet that uses the mouse listener, which overrides only two methods which are mouse Pressed and mouse Released.
- 7 **Practicle-7**
Develop a program that has only one button in the frame, clicking on the button cycles through the colors: red->green->blue and so on. One color changes per click.(use get Background() method to get the current color)
- 8 **Practicle-8**
Develop an program that contains three check boxes and 30 x 30 pixel canvas. The three checkboxes should be labeled "Red", "Green", "Blue". The selection of the check boxes determines the color of the canvas. For example, if the user selects both "Red" and "Blue", the canvas should be purple.
- 9 **Practicle-9**
Create an application that displays a frame with a menu bar. When a user selects any menu or menu item, display that selection on a text area in the center of the frame.
- 10 **Practicle-10**
Develop a program that draws two sets of ever-decreasing rectangles one in outline form and one filled alternately in black and white.
- 11 **Practicle-11**
Develop a database application that uses any JDBC driver.
- 12 **Practicle-12**
Develop a program to present a set of choice for user to select a product and display the price of product.
- 13 **Practicle-13**
Create a java application to call one servlet from another servlet.
- 14 **Practicle-14**
Create a web form which processes servlet and demonstrates use of cookies and sessions.
- 15 **Practicle-15**
Develop a simple JSP program for user registration and then control will be transfer it into second page.
- 16 **Practicle-16**
Develop a JSP program to display the grade of a student by accepting the marks of five subjects.
- 17 **Practicle-17**
Develop a JSP application to insert, update and display record in MySQL database. (Assume suitable database).

10. LIST OF OPEN-SOURCE SOFTWARE/LEARNING WEBSITE :

- 1 Any editor - Visual Studio Code, Eclipse IDE, NetBeans IDE
- 2 Java Applets:
